The Government will only review a maximum of five (5) submitted projects under this Factor. Any projects submitted in excess of five (5) will not be considered.

Evaluation of this factor will be an assessment of the overall past performance record on an Acceptable/Unacceptable basis.

Offerors need not submit for this factor; but if they choose to, offerors should submit past performance information on relevant projects that are at least 75% construction progress complete or completed within ~~seven~~ five (7.5) years preceding the date proposals are due on projects submitted under Factor 1, Specialized Experience. The Government may seek all relevant performance information on all responsive and otherwise Technically Acceptable Offerors through sources such as CPARS or other government databases and other sources that are available. The Government shall not be limited in its search for performance data.

L.11. GENERAL INSTRUCTIONS

Proposals are expected to conform to solicitation provisions and be prepared in accordance with this section. To aid in evaluation, the proposal shall be clearly and concisely written, neatly presented, indexed (cross-indexed as appropriate), and logically assembled. All pages of each part shall be appropriately numbered and identified with the name of the offeror, the date of the offer, and the solicitation number. Each volume shall be clearly marked by volume number and title.

(1) VOLUME I - TECHNICAL PROPOSAL

(i) General.

- a) Volume I, Technical Proposal, consists of the offeror's proposal delineating its capabilities and how it intends to perform contract requirements. The Technical proposal will be evaluated in accordance with the criteria contained in Section M.
- b) In order that the technical proposal may be evaluated strictly on the merit of the material submitted, **no contractual price information is to be included in Volume I.** However, the type and quantity of labor and materials is to be included in the Technical Proposal, without any associated cost information.
- c) The technical proposal must be legible and not exceed ten (10) pages, single-sided, exclusive of Factor 2 submission, which includes past performance questionnaires and/or CPARS. Any pages in excess of ten (10) will be disregarded, and will not be included in the proposal evaluation. Failure of the offeror to comply with the page limitations, resulting in the excess pages not being evaluated, shall not constitute grounds for a protest.

If a teaming arrangement or joint venture is being proposed, a copy of the teaming or joint venture agreement(s) shall be included in the technical proposal. These agreements shall not count towards this factor's page limitation.

- d) If an Offeror is utilizing experience or past performance information from any entity that does not match the name, CAGE code, and / or Unique Entity ID (UEI) of the

Offeror exactly as stated on the SF 1442 (e.g. affiliates, subsidiaries, parent companies, sister companies, etc.) the proposal shall clearly demonstrate how that entity will have meaningful involvement in the performance of the contract and specifically address which resources are being committed to the contract. Failure to comply with this requirement or failure to adequately demonstrate meaningful involvement and commitment of resources on behalf of that entity may result in that experience and past performance information to be considered not relevant and may result in lower ratings. This explanation shall be provided in paragraph (h) of **Attachment J05, Company Specialized Experience Form**, as applicable for each project.

- e) All offerors must be registered in System for Award Management (SAM) database. Offeror must have an active SAM registration at the time of the submission of their offer. Failure of an offeror to meet this requirement at the time of proposal submission shall result in the offer being non-responsive to the solicitation. Offerors may obtain information on registration and annual confirmation requirements via the internet at: <https://www.sam.gov>.
- (ii) Format and Content. Volume I, Technical Proposal, shall include the following contents:
- a) Table of Contents
 - b) List of Tables and Figures
 - c) Summary of Technical Proposal
 - d) Technical Proposal (Evaluation Factors 1 – 2)
- (iii) Evaluation Factors to be addressed:

FACTOR 1: Specialized Experience:

Submittal Requirements: The offerors shall exhibit a comprehensive and complete technical proposal that demonstrates their ability to perform the work described in this solicitation by submitting at least three (3) but no more than five (5) relevant projects that are of similar size, scope and complexity as described in this solicitation that must be at least 75% construction progress complete or completed within five (5) years preceding the date proposals are due.

- **At least one (1) of the projects shall demonstrate experience in implementing infection control and interim life safety plans during renovation of a Pharmacy.**
- b. Experience will be evaluated based on the Offeror's demonstration of similar, relevant, and recent projects within the broad scope of this solicitation for services as described in this solicitation. For the purposes of this factor, "Relevant" is defined as construction or renovation of a pharmacy similar in size, scope and complexity to the requirements described in this solicitation. Projects that are similar in size, scope and complexity to the requirements described in this solicitation will be highly scrutinized. "Recent" is defined as being at least 75 % construction progress complete or completed within the past five (5) years preceding the date proposals are due.
- c. **Attachment J05, Company Specialized Experience Construction Form** is provided as a reference for information that shall be included with each project. This form is not required, but each project shall include at least all information on this form (e.g., name, project name, location of project, type of project, owner, scope, firm's role (prime or subcontractor), cost, subcontracts, dates, reference contact information, etc.). If any of the information required is not included, then the contractor may be considered non-responsive and evaluated as "UNACCEPTABLE."
- d. **If any experience will be used for evaluation of other than the prime firm, (e.g. affiliates, subsidiaries, parent companies, sister companies, etc.), a teaming arrangement shall be provided.**

If this is the case, clearly describe any teaming arrangements, describe which firms, firms' resources, the relative firms' roles and responsibilities and any contractual arrangements that have been established to constitute the offeror's team. **A teaming agreement is not required for subcontractors.** If the Offeror is a Joint Venture (JV), relevant experience should be submitted by that JV entity. If the JV does not have shared experience, projects shall be submitted for each JV partner relevant to their overall JV partnership. Offerors who fail to submit experience for all JV partners may be evaluated as "UNACCEPTABLE."

- e. If any of the information required is not included in the proposal, then the contractor may be considered non-responsive and evaluated as "UNACCEPTABLE."

FACTOR 2: Past Performance

Submittal Requirements: Past performance will be evaluated using the Contractor Performance Assessment Reporting System (CPARS). Offers should submit copies of their CPARS ratings for all projects submitted under Factor 1 - Specialized Experience or if no relevant past performance history is available for your submitted projects in CPARS, you may choose to utilize the attached Past Performance Questionnaire (PPQ) (Section J, **Attachment J06**) which will be used for evaluation.

The Government will only evaluate up to five (5) CPARS/PPQs for the prime contractor and/or JV entity. Government databases may be checked and previous customers and/or evaluators may be contacted as references or verification of performance. All performance ratings will be considered for all submitted CPARS/PPQs. The Government reserves the right to evaluate past performance information on proposals submitted in response to this solicitation from any available source.

All projects submitted on a Past Performance Questionnaire (PPQ) must be at least 75% construction progress complete or completed within five (5) years preceding the date proposals are due.

The PPQ (Section J, **Attachment J06**) is provided so that Offerors may submit to the client for each project submitted in Factor 1, Specialized Experience, if such information is not provided in CPARS. Do not submit PPQs for projects that are not also submitted in Factor 1, Specialized Experience. Ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal, but are not required. Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Shaukat.Syed@ihs.gov, via email prior to proposal closing date. Offerors shall not include nor incorporate by reference into their proposal PPQs previously submitted for other RFPs. This does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation. While the Government may elect to consider data from any and all other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

Offerors may provide any information on problems encountered and the corrective actions taken on projects submitted under Factor 1, Specialized Experience. Offerors may also address any adverse past performance issues. Explanations shall not exceed two (2) double-sided pages (or four (4) single-sided pages) in total.

The Government reserves the right to contact references for verification or additional information. The Government's inability to contact any of the Offeror's references or the references unwillingness to provide the information requested may affect the Government's evaluation of this factor.

Performance awards or additional information submitted will not be considered.

Any past performance provided for a firm other than the offeror(s) (prime contractor(s)) that is not listed under their name/SAM Unique Entity Identifier (UEI) number submitted under this solicitation will not be considered.

END OF SECTION

M.1.1. VOLUME I: TECHNICAL PROPOSAL

FACTOR 1: Specialized Experience

Basis of Evaluation: Evaluation of this factor will be an assessment of the offeror's project experience on an Acceptable/Unacceptable basis. To achieve an Acceptable rating, at least three (3) relevant projects submitted must be at least 75% complete within the preceding five (5) years from the date of proposals and must be determined to be relevant in similar size, scope, and complexity to the requirement described in this solicitation **AND** at least one (1) of the projects shall demonstrate experience in implementing infection control and interim life safety plans during renovation of a Pharmacy. The Government will only review a maximum of five (5) submitted projects under this Factor. Any projects submitted in excess of five (5) will not be considered.

Any experience provided for a firm other than the offeror(s) (prime contractor(s)) that is not listed under their name/SAM Unique Entity Identifier (UEI) number submitted under this solicitation will not be considered.

*If a teaming arrangement or joint venture is being proposed, a copy of the teaming or joint venture agreement(s) shall be included in the technical proposal. These agreements shall not count towards this factor's page limitation.

* If any affiliates are included in this solicitation, each affiliate's experience and past performance will be evaluated in the same manner as the prime offeror. In addition, each affiliate will be subjectively evaluated with regards to what resources will be utilized, how they will be utilized and the overall involvement of the affiliate in performance of the contract.

FACTOR 2: Past Performance

Basis of Evaluation: The basis of evaluation will be the degree to which past performance evaluations (to include PPQs if applicable) and all other past performance information reviewed by the government (i.e., CPARS, PPIRS, FAPIIS, eSRS, performance recognition documents, etc.) reflect a trend of satisfactory performance. Evaluation of this factor will be an assessment of the overall past performance record on an Acceptable/Unacceptable basis.

Offerors need not submit for this factor; but if they choose to, offerors should submit past performance information on relevant projects that are at least 75% construction progress complete or completed within five (5) years preceding the date proposals are due on projects submitted under Factor 1, Specialized Experience. The Government may seek all relevant performance information on all responsive and otherwise Technically Acceptable Offerors through sources such as CPARS or other government databases and other sources that are available. The Government shall not be limited in its search for performance data.

In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance

(see FAR 15.305(a)(2)(iv)). Therefore, the offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability “unknown” shall be considered “ACCEPTABLE.”

Any past performance provided for a firm other than the offeror(s) (prime contractor(s)) that is not listed under their name/SAM Unique Entity Identifier (UEI) number submitted under this solicitation will not be considered.

NOTICE TO OFFERORS: Offerors must acknowledge receipt of any and all amendments by number and date on their cover letter in their offer or by submitting a signed copy of the SF30. All other terms and conditions remain unchanged.

END OF SUMMARY OF CHANGES
